

## **STOP** DALLAS TO HOUSTON HIGH SPEED RAIL

- 200 MPH train proposed to run from Houston to Dallas every 30 minutes
- This project will provide NO benefit to Grimes County and will destroy property values
- High-speed rail systems are not known to be profitable. Researchers expect the project to fail financially, leaving taxpayers with the bill.
- There will be limited crossings along the route, creating a disruption for property owners, as well as Fire, EMS, and Law Enforcement
- The proposed routes follow either the CenterPoint utility right of way or the BNSF Railroad. Both routes will bisect Grimes County.

## **STOP**

### **TWO NEW PROPOSED 345 KV LINES - BRAZOS VALLEY CONNECTION AND CROSS TEXAS TRANSMISSION**

- Brazos Valley Connection is a 345 kV electric transmission line proposed to run from Harris County to Grimes County, crossing through Waller County.
- Cross Texas Transmission is a 345 kV electric transmission line proposed to run from Grimes County to Limestone County, crossing through Madison, Brazos, Robertson, Leon, and Freestone Counties.
- These lines will destroy a minimum of 121 acres of land for every mile they cross, and significantly diminish the value of the adjoining property
- The lines do not provide any benefit for the counties which will be crossed. The lines are being built to benefit Harris County ONLY.

and [www.crosstexas.com](http://www.crosstexas.com)

## **STOP** STATE HIGHWAY 249 TOLL ROAD

- The toll road will run from FM 1774 to State Highway 105 east of Navasota and have a single access point between FM 1774 and SH 105, with no frontage roads
- This project will divide properties, deny owners access, ruin property values, and cause delays and increased service costs for Fire, EMS, and Law Enforcement
- Texas Department of Transportation (TxDOT) traffic studies do not support the project
- It is a waste of taxpayer money

## A Plea for Action

Help preserve Grimes County

There are currently four major projects proposed to come through our county. These projects will negatively impact the quality of life in our community forever.

We need our landowners and elected officials, state, county, and city, to help us **STOP** these projects.

*Keep Grimes County Beautiful!*
